DATA ANALYSIS · SUPPLY CHAIN

Devni Nikeshala Bandara

Data Analyst | Supply Chain & Warehouse Operations

I turn warehouse data into automated tools, clear reports and faster decisions, using Excel/VBA, SAP, WMS exports and web development.

Data Analysis | Supply Chain | Automation

About

I work in warehouse operations and build the tools that keep them accurate: reconciliations, cycle counts, replenishment planning and reporting. My focus is moving from running these processes to analysing and improving them with data.

Skills

Advanced Excel | VBA Macros | SAP | WMS | Pivot Tables & Dashboards | Inventory Control | FIFO Replenishment | Reconciliation | JavaScript | SQL | Power BI

Featured Projects

Replenishment Planning System

Excel/VBA tool that checks pick-face stock against Min/Max levels and builds FIFO transfer plans from a CB Report and Daily Picking List.

- Header-driven column reading; composite SKU + Case + Lot keys
- Pack-size rounding and printable daily plan
- Diagnosis log explaining every decision

EXCEL · VBA · WMS DATA

GRN Reconciliation

Macro that matches GRN List against TID List on Material Document, PO and date, with prioritised alerts.

- Flags missing, duplicate and pending TIDs
- PO exclusion rules; Mismatch Records tab

EXCEL · VBA · SAP DATA

Cycle Counting Report & Dashboard

Multi-module VBA system producing print-ready count sheets per date and team, plus a monthly dashboard tracking variance by material.

- SAP vs counted reconciliation
- Execution plan and progress tracking

EXCEL · VBA · SAP

PickMatch Validator

Validates pick locations against live stock, then builds inventory transfer rows for any shortfall.

- FIFO sourcing, AP status only
- Colour-coded failure reasons

EXCEL · VBA

Daily Task Summary Report

Automated reporting from the daily WMS task export: task, operation and operator summaries, charts and productivity ranking.

EXCEL · VBA · WMS

Warehouse Document Portal

Web system tracking documents through Print, Pick, Check, Delivery and Confirm, with duration tracking per stage.

REACT · TYPESCRIPT · SPRING BOOT · MYSQL

Shell Savings: 100-Day Tracker

Web app for a 100-day savings challenge with login and progress tracking, extended so users can set their own goal amount and number of days.

WEB APP · SUPABASE

Experience

Operation Assistant

Hayleys Advantis 3PL

Oct 2024 – Present

- Warehouse operations: inventory accuracy, cycle counting, GRN and dispatch processes.
- Work with SAP and CoreBrain WMS to support operational visibility.
- Support cycle-count planning, count-sheet preparation, variance follow-up and reconciliation.
- Develop and refine Excel formulas and macros to reduce repetitive work and improve consistency.
- Coordinate system issues and transaction access concerns with the relevant support teams.
- Build and maintain Excel/VBA automation and document management tools.

Head of Administration

Institute of Psychological Studies

Oct 2022 – May 2024

- Executed tasks related to Human Resources, Finance and general office administration.
- Provided administrative support to the lecture panel.
- Managed the student life cycle from registration to graduation.
- Handled queries and the complaints procedure.
- Coordinated examinations and the assessment process.
- Assisted in developing and implementing office policies and procedures.
- Monitored office inventory levels and placed orders as necessary.
- Coordinated office space planning and layout.
- Handled office communications, including email and phone.

Trainee Staff Assistant, Health & Safety

Brandix Lingerie – Wathupitiwala

Sep 2021 – May 2022

- Advised employees on safety-related topics.
- Prepared reports on accidents and violations.
- Assisted with enforcement of Covid-19 regulations and guidance where necessary.
- Checked for protocol violations and took the necessary actions.
- Handled new recruits' personal files and prepared employee information.
- Prepared reports for easier analysis in the recruitment process.

Volunteer HR Intern, Recruitment

Brandix Lingerie – Wathupitiwala

Jun 2021 – Sep 2021

- Updated new employee details on the HRIS as part of the recruitment team.
- Issued EPF numbers, appointment letters, bar codes, QR codes and BOI passes to new employees.
- Prepared the interview process and coordinated examinations and assessments.
- Carried out safety visits, identified hazards within the factory and took the necessary actions.
- Assisted in developing and implementing office policies and procedures.

Education & Certifications

Professional Diploma in Supply Chain Management

CINEC Campus · 2025 – Present

Post Graduate Diploma in Labour Relations & HRM

University of Colombo · 2024 – 2025

Higher Diploma in Information Technology

University of Colombo · 2017 – 2019

Diploma in ICT & Computing

IDM Campus · 2014 – 2015

Advanced Level – Biology

Veyangoda Central College · 2013
